TRADING CONFINED MOSTLY TO THE SEVERAL INDUSTRIALS.

Grangers Led the Railroad List in Activity-Local Markets Dragging and Unchanged.

At New York, yesterday, money on call was easy at 1 per cent.; last loan, 1; closed 1 per cent.

Prime mercantile paper, 3%4 per cent. Sterling exchange was dull with actual business in bankers' bills, \$4.90@4.90% for demand and \$4.89@4.89% for sixty days; posted rates, \$4.89\\24.90 and \$4.90\\2; commercial bills, \$4.88@4.88%.

Silver certificates, 67@67%c; bar silver, 67c; Mexican dollars, 53%c. Bar silver at Lendon was 30 9-16d per ounce.

Total sales of stocks were 189,713 shares, including: American Sugar, 28,500; American Tobacco, 3,300; Burlington, 16,700; Chicago Gas, 41,900; Lake Erie & Western, 3,500; Reading, 3,500; Rock Island, 3,000; St. Paul, 12,800; Southern railroad preferred, 3.100; Tennessee Coal and Iron, 7,500; United States Leather, 3,100; United States Leather preferred, 14,000; Wheeling & Lake

Erie, 3,400. The volume of business on the Stock Exchange yesterday was light and the share market was irregular. As of late, the industrials occupied the chief attention, the grangers alone of the railway group appearing prominently in the transacitons. Americans were neglected in the London market and the stagnation abroad was reflected in the light trading here for the arbitrage account. Chicago Gas led in the activity. The selling in the morning was heavy and was mainly for the short account, while the buying, it is claimed, was chiefly by the Benedict party. Leather preferred made the heaviest break of the list, the weakness being due to the semi-official anouncement of an intended increase in the capital stock of \$8,000,000, to be equally di-wided between the common and preferred shares. Favorable crop reports induced the short interest in the grangers to cover and there were a few Western purchasing orders on the board which helped to strengthen these shares. Little attention was paid to the gold export question, the general feeling seeming to be that there can be no serious decline on the gold in view of the near approach of the time when produce bills will appear in sufficient quantities to afford a basis for all the sterling exchange needed. At the opening, trading was moderately active, but no special changes took place beyond a gain of 14 per cent. in Cotton Oil. The bears quickly renewed their aggressive tactics nickly renewed their aggressive tactics gainst the industrials, breaking Leather referred and Illinois Steel 3 per cent., and icago Gas, 1% per cent. The reactionary dency was checked before 11 o'clock, Leather preferred rallying 1% per cent., and Chicago Gas. 1; while Bay State Gas rose, 3½ per cent. to 21½. The rallway list under the lead of the grangers made advances of 1/2/11½ per cent., the latter in Northwest. About midday Leather was again pressed for sale, the common receding 1% and the preferred 1% per cent. There was a general sympathetic decline of a fraction and Consolidated Gas fell off a fraction and Consolidated Gas fell off

1 per cent. A general rise in values took
place around delivery hour, which was
most marked in the industrials, Chicago
Gas appreciating 1%; Colorado Fuel and
Leather preferred, 1½, and Illinois Steel, 2
per cent. In the later dealings Sugar was
offered freely and yielded 1½ per cent.;
Chicago Gas receding 1%; Leather preferred, 1, and others of the group a fraction. The railway group, except the grang-

tion. The railway group, except the grangers, reacted slightly in the final trading and the market closed heavy, the more important changes on the day being: Declines—Leather preferred, 1%; Sugar, 1%. Advances—Bay State Gas, 3% per cent.; Iowa Central preferred, 2; Evarsville & Bonds were irregular, with sales 1,127,000. The net results show a majority of advances, the more prominent of which are: Fulton Elevated fives, 3½; Oregon Short-line consols and Chicago & Eastern Illi-nois consols, 2. Louisville & Nashville fives St. Paul consol sinking fund fives, and St. Paul consol sinking fund fives, 11/2; Cincinnati & Dayton and Ironton fives, I.ake Shore firsts, Pacific of Missouri fours, Pittsburg, C., C. & St. Louis four-and-a-halfs and Eries, 1 per cent. Declines—Penn-sylvania four-and-a-halfs, registered, 2% per cent.; Susquehanna & Western refunding fives, 11/2, and Keokuk & Des Moines firsts, and Northern Pacific consol fives trust receipts.

ceipts, 1 per cent. Government bonds were steady. State bonds were inactive.

LACK OF EXPORTS AND FEW OUT-SIDE ORDERS CAUSED WEAKNESS.

All Cereals Participated in the Decline, Corn and Wheat Losing a Cent-Provisions Advanced.

CHICAGO, July 18 .- Wheat continued on the downward grade to-day, the lack ci export inquiry and outside orders weakening the market. September closed ic lower, corn closed ic lower, September oats closed %c lower, but provisions made moderate

Wheat opened at from le to 1%c under the price it closed at on the day before. The weather bureau prediction of frost in the Northwest was not realized, and the Cincinnati Price Current declared that everything was lovely and the spring wheat condition very high. The market soon followed up its opening decline by seeking a still lower level. Besides the harvest features just mentioned, the foreign markets were all lower. The receipts were small for the season, but so likewise were the exports. Chicago received 48 carloads, 47 of which were new red winter, and 17 of which inspected No. 2. The only wheat exported from the Atlantic seaboard for twenty-four hours was 1,205 bushels from Philadelphia, and a Baltimore house wired that they resold to-day three boatloads of wheat that were taken by a foreign house yesterday. The trade was as narrow as has been remarked of it for some days, and was easily influenced by comparatively small transactions. After the weakness with which the market opened had run its course it became firm, and gradually worked up an appearance of actual strength. The recovery was due for the most part to covering by shorts, but there was also some buying for long account on a still remaining probability of frosts before to-morrow morning in the Northwest,

Corn was weak at the opening, under the influence of favorable weather for the growing crop, and recovered later on the development of a demand for cash corn. Between 200,000 and 300,000 bushels were Transfers, 10; consideration.......\$14,600

WEATHER BUREAU RIGURES.

Temperature Records Yesterday
Morning and Last Night.

The local forecast official of the Weather
Bureau furnishes the following observations:

Transfers, 10; consideration......\$14,600

Between 200,000 and 300,000 bushels were worked for shipment, and New York reported 23 boatloads sold there for export. The sales here for shipment were probably identical with the export business reported from New York. Receipts were 156 cars. The opening rapge for September was 44%c and 44%c, and the latter was the closing rate. It first sold down to 43%c, and a great deal of short corn was covered on that break It recovered gradually to 44%

great deal of short corn was covered on that break. It recovered gradually to 44½ @44%c, and closed as above.

For a time after the opening oats had a comparatively firm tone. There were a good many buying orders, and sellers were none too plentiful. Later on, however, offerings were more than liberal, and came from a great many different individuals, principally stop orders. A great decline resulted, and from that time on the market was weak. September started at 22%c, sold at 23c, down to 22½c and closed at 22½c bid. Provisions were affected in the forenoon by the weakness of the grain market, but by the weakness of the grain market, but later one of the principal shorts bought through several brokers and sustained the market by so doing. At the close pork was 12½c higher, lard .05c higher and ribs .02½c higher. Receipts of hogs were 14,000. Estimated cars for Friday—Wheat, 90; corn, 175; oats, 180; hogs, 12,000 head.
